The North Pole.
The Greenhouse.

We need
to talk about
Beast.

Which
Beast?

I don't
know what to call
him. He's the old
Beast, but he's also
the new Beast. The
newly awakened
clone.

Our prisoner.
And hopefully
our ally.

His mind is the weapon we've
been lacking in this ongoing
conflict.

With every
move Beast Prime
makes, we'll ask for
a responsive
action.

I'm warming
up to this, Sage.
But I'm still
worried.

On the
one hand, he
used to be a
friend.

The other
hand...he is
who he is.

The Hank
we're hunting is
crouched inside the
Hank sitting in the
other room.

"Well, where
the @#% did
he go?"

Los Angeles, California.
