BONUS DIGITAL EDITION — DETAILS INSIDE!

Jennifer Walters was a shy attorney, good at her job and quiet in her life, when she was gunned down by criminals. A gamma-irradiated blood transfusion from her cousin, Dr. Bruce Banner, A.K.A. the Incredible Hulk, didn't just give her a second chance at life, but also super-strength and bulletproof green skin--and unbelievably gorgeous hair. She is the...

SENSATIONAL *She-* HULK

Previously...

Jen's not one to whine, but life sure hasn't been making things easy for her as of late. After getting between her cousin Hulk and the newly gamma'd up Anathema's knock-down, drag-out brawl in her Upper West Side neighborhood, Jen needed to cut loose. Ready for a night on the town with her girls, Carol Danvers and Patsy Walker, Jen seemed to be gearing up for a great night out until their bar was besieged by demons and needed the super hero services of She-Hulk, Captain Marvel, and Hellcat instead. She-Hulk's unintentionally destructive do-gooding hasn't exactly flown under the radar either, and her short-fused boss, Mallory Book, has heard all about it. Someone give this girl a break!

You want to take a vacation?

Yes! I've been trying to think of how to convince you to take time off. This is *perfect*.

I wouldn't call it "perfect"...

I already have the place picked out.

You do?

I have this theory...

I generally like your theories. Go on.

You know how I absorb your gamma...

Right.

...unless I top myself off with some other sort of radiation?

Yeah.

What if we went someplace where I *stay* topped off?

Someplace like...?

The sun.

You want to take me on vacation to the sun?

Close to the sun. Closer.

There's a place I've heard about-- I don't know the actual name, but they call it *Club Sol*.

Who calls it that?

Space pirates. High rollers from distant planets. Well-heeled aliens seeking fun near the sun.

You're immune to radiation, and I just absorb it. I think I might even be able to wear something other than this suit.

Maybe we could just... be normal there.

Like a normal couple on a romantic mini-break?

I think so... What's a mini-break?

Something I've wanted to take ever since I read *Bridget Jones's Diary*.

You want to take a mini-break to the sun with me?

This works out perfectly! Karkas and Ransak can just crash here while we're gone.

Perfect...
